

Lean Canvas – SDG 3: Good Health & Well-Being

Project Title: AI-Powered Hospital Receptionist & Patient Routing System

Customer Segments	Hospitals, Clinics, Diagnostic Centers
Top Problems	Long waiting time, Staff shortage, Incorrect ward allocation
Existing Alternatives	Manual forms, Human reception desks
Solution	AI chatbot receptionist with automatic ward routing
Unique Value Proposition	Instant patient triage with AI – faster care, zero waiting
Unfair Advantage	AI-driven full-stack automation, scalable & low-cost
Channels	Hospital partnerships, Referrals, Healthcare networks
Key Metrics	Hospitals onboarded, Patients served per day
Cost Structure	Cloud hosting, AI model usage, Maintenance
Revenue Streams	Hospital subscriptions, Licensing fees
